Dear Catherine,

I received notification about the Eagle Rock Project from Julina Bonilla at the Port of Oakland as referenced below. After making inquiries, it is my understanding that this project has very little safeguards to protect the West Oakland residents, also to be more clear it adds pollution to West Oakland. This terminal is open with with piles of bulk products for constructions items to mix cement. There are no jobs for West Oakland residents, this terminal with emit pollution for the material blow dust from the piles, and I understand Rep. Barbara Lee isn't in favor of the project. Also, the project contradicts AB 617 WOAP. And I am on the Steering Committee for AB617.

This project does not have my approval for West Oakland.

Best Regards,

Mercedes S. Rodriguez

Dear Julina,

It is so great to hear from you. It has been a long time. I must say that **Joyce Guy** is doing a wonderful job at the West Oakland Job Resource Center (WOJRC).

As to the **Eagle Rock Project**. I just reviewed the document and it appears as if the community will need to respond to the **Notice of Preparation (NOP)** by **September 30, 2019**. Being that today is September 27th, and the scoping period began August 28th, I do hope that **Ms. Margaret Gordon and Brian Beveridge** have had previous notice regarding this project. They would know best what the impact of the Eagle Rock Project will have on the West Oakland community and its residents.

Regards,

Mercedes S. Rodriguez

Hi All,

Please see the attached notice for the Eagle Rock Project, share widely and send your comments to Catherine Mukai below.

Scoping: The Port is issuing this Notice of Preparation (NOP) to invite comments on the scope and content of the Draft SEIR. The scoping period begins on August 28, 2019. An Initial Study has not been prepared.

The Port is sending this to all interested parties and Responsible Agencies who will rely on the SEIR for their approval. When the Draft SEIR is published it will be sent to persons who respond to this NOP or otherwise indicate interest in the project. Responses to this NOP and any related questions or comments regarding the scope or content of the Draft SEIR should be submitted in writing to:
