Project Description

The Port is the local land use authority for the Port Area, including the Oakland Airport Business Park and the project site. The project site is located along Swan Way at Pardee Drive. The work will occur on the property owned by Lighting Ventures, LP, leased by AT&T Mobility

The applicant proposes to construct an unmanned wireless telecommunications facility at the site with a faux tree monopole for wireless antennas. Further details are posted with this notice.

Environmental Review

The Port is the Lead Agency under CEQA, having land use jurisdiction over the Oakland Airport Business Park. The project boundaries are located in a developed area, and improvement will be made to an existing facility with no change of use. The Port finds that this project is categorically exempt pursuant to CEQA Guidelines Section 15303, which exempts the construction of new small structures or conversion of small structures as well as associated minor utility extensions.
