About the Middle Harbor Shoreline Park (MHSP):
Middle Harbor Shoreline Park (MHSP) is a 38-acre shoreline park built and operated by the Port of Oakland for the community, with more than two miles of pathways encircling Middle Harbor Basin. The planning and design of this park was done with extensive community involvement, which identified key goals for the park. Primary goals included creation of a place for learning about the local history, natural environment, maritime activities and stewardship for the environment. In addition, MHSP provides unprecedented access to the shoreline, with associated views of the bay, natural habitats and maritime activity.
