**The following question was submitted prior to the deadline and is answered in this addendum:**

**Question:** In order to provide an accurate Bid we need **clarification on the Remote Training:** Below is the response from our distribution team, **Kindly let us know if you would be open for Onsite Training.** "The NCSE class is historically given either at an nCipher location or the customer location. Due to COVID-19 travel restrictions we are now providing the class online, we haven't updated the pricebook or the SKU description, **as there are places in which we have been able to provide onsite training.**"

**Answer:** *The Port is aware MFG# is only for onsite training but an alternative remote learning is also currently available due to COVID-19; item 12 MFG# was left blank for this reason. You may use recommended MFG# as long as your bid/cost reflects a remote training class.*
