**REQUEST FOR PROPOSALS  
CONSULTING SERVICES FOR STORMWATER MANAGEMENT AND  
TIDAL FLOODING VULNERABILITY ASSESSMENT AT THE NORTH FIELD**

The Port of Oakland (“Port”) is soliciting Proposals from qualified consultants for consulting services for stormwater management and tidal flooding vulnerability assessment at the North Field of the Oakland International Airport (“Airport”). The selected Consultant/Team will update the Airport Stormwater Management Implementation Plan and assess tidal flooding vulnerabilities at the North Field of the Airport. The selected Consultant will develop conceptual designs for improvements and rough order-of-magnitude estimates and assist Airport staff in evaluating the options and selecting the preferred options.

The Request for Proposals (RFP) is available for download in PDF format at a hosting website that can be accessed via the ‘Current RFPs/RFOs: Port of Oakland Engineering Department’ link at the following URL: <http://www.portofoakland.com/business/bids-rfps/>.

Consultants interested in submitting a Proposal for this work are invited to attend the Pre-Proposal Meeting scheduled as follows:

**10:00 A.M. on Thursday, April 18, 2019**

**Exhibit Room, 1<sup>st</sup> Floor**

Port of Oakland Building

530 Water Street

Oakland, CA 94607

At the Pre-Proposal Meeting, the Port will provide information related to the Port’s insurance requirements and Non-Discrimination and Small/Local Business Utilization Policy, and will answer questions regard the proposed project, submittal requirements and the selection process.

Proposals will be received until 12:00 P.M. on May 10, 2019. Please refer to the RFP for other applicable details.

Sincerely,

Robert Andrews  
Acting Director of Engineering
