Meeting ID **923 2599 6554** Passcode: **978685**

The purpose of this RFP is to solicit proposals from qualified consultants to provide “as-needed” to the Port of Oakland with air quality technical expertise and consulting services. Consultant should have the capability to perform work listed in the RFP. If a consultant proposes to form a team with other firms, the prime consultant firm must be capable of performing many of the identified air quality services itself.

The Port expects that consultants or consulting teams, comprising the Proposer as the prime consultant and supporting sub-consultants to address specialized areas of expertise, will be most likely to respond. The Port intends to award up to five (5) separate contracts, including up to one (1) contract for designated qualified Small Business Enterprise (SBE) or Very Small Business Enterprise (VSBE). The Port anticipates executing each contract for a term of up to five (5) years and an estimated contract value of \$600,000, pending approval by the Board of Port Commissioners (Board). However, the actual volume of work could vary; execution of an Agreement will not constitute any guarantee of business or level of compensation.

Portions of this work may be funded by Federal and State grant funding. The successful Respondent will be required to comply with any additional Federal or State funding requirements.

Copies of the RFP may be obtained at the Port of Oakland – Purchasing Department, 530 Water Street, Oakland, CA 94607, (510) 627-1140, Office Hours: 9:00 a.m. to 4:00 p.m., or by visiting the Port of Oakland’s main website at <http://www.portofoakland.com/>, then clicking on “Bids/RFPs” from the banner on the top of the page, and then scrolling down to download the RFP.
