

FOOD & BEVERAGE CONCESSION OPPORTUNITY

Oakland International Airport

On February 6th and 7th, the Port of Oakland hosted informational Open House and Community Outreach events in anticipation of the pending release of a Request for Proposals for Food & Beverage Concession Opportunities at Oakland International Airport. These events were well-attended by more than 150 potential restaurateurs, concessionaires, suppliers, vendors and financial partners, plus existing tenants.

From those who attended, Port staff received positive feedback. Staff and consultants presented the following topics:

- OAK Marketing & Air Service Update
- Current & Proposed Food & Beverage Program @ OAK
- Unique Aspects of Operating in an Airport
- ACDBE Participation & Certification Process
- Caltrans' ACDBE Workshop

The program agenda, handouts, and these presentations have been posted on the Port's website at: <http://www.portofoakland.com/business/bids-rfps/>.

Port staff is reviewing questions and comments received during the events and from subsequent email messages. Additional feedback may still be sent to concessions@portoakland.com through February 23rd; the Port's responses will be posted on-line shortly afterwards.

We encourage anyone interested in learning more about OAK's Food & Beverage Concession Opportunity to frequently visit the Port's website, as this will be the main source of information and updates.
