NOTICE OF RFP CANCELLATION

RE: RFP No. 21-22/45 - Cybersecurity Vulnerability Assessment

The Port of Oakland (Port) is cancelling the above-referenced RFP due to technical issues with downloading some of the proposals from Liquid Files. The Port plans to re-issue a new RFP in which it may contain some additional requirements and restrictions. The Port appreciates and understands firms went through great efforts in preparing a response for the above-mentioned RFP and apologizes for any inconvenience this may have caused. The Port will notify all firms that have submitted a proposal once the new RFP is available. All submitted proposals that were downloaded by the Port, along with any evaluation documents for this RFP were destroyed, so proposers will need to submit all new documents for the new RFP.
