

INVITATION TO SUBMIT STATEMENT OF QUALIFICATIONS

Request for Qualifications (RFQ) for On-Call Architectural and Engineering Design Services for Non-Federally Funded Projects at Oakland International Airport

The Port of Oakland ("Port") is soliciting Statements of Qualifications (SOQs) from qualified teams of consultants for providing "on-call" Architectural and Engineering Design services for non-federally funded projects at Oakland International Airport. The Consultant selected will provide a full-range of architectural and engineering design services, including services of subconsultants, for various airport vertical construction projects to rehabilitate, renovate, and improve existing facilities on airport property.

This Request for Qualifications (RFQ) is being issued concurrently with the *RFQ for On-Call Architectural and Engineering Design Services for Federally Funded Projects at the Port of Oakland*. Qualified consulting firms may submit SOQs for both RFQs. The Port intends to select one (1) Consultant to provide services under this RFQ. The selected Consultant under this RFQ is precluded from being selected for the *On-Call Architectural and Engineering Design Services for Federally Funded Projects at the Port of Oakland*. The budget for services for both contracts is expected to not exceed \$10M combined for both consultant contracts over the five-year contract period.

The Port has posted this Request for Qualifications (RFQ) in digital format on a hosting website that can be accessed via the 'Current RFP's/RFQ's: Engineering Consulting Services' link at the following URL:

<http://www.portoakland.com/business/bids-rfps/rfq-engineering/>.

Proposing consultants should carefully review the requirements of this RFQ to ensure that they meet all of the stated requirements.

Statement of Qualifications (SOQ) will be received at the location, and until the time/date, specified under "RFQ Schedule" and "Instructions for Submitting Qualifications", below.

Consultants interested in submitting Statements of Qualification (SOQ) for this work are strongly urged to attend a Pre-Submittal Meeting to be held via teleconference at the time/date specified under "RFQ Schedule," below. At the Pre-Submittal Meeting, the Port will provide information related to the Port's insurance requirements, Disadvantaged Business Enterprise (DBE) provisions pertaining to federally funded projects, Non-Discrimination and Small/Local Business Utilization Policy pertaining to Port funded projects, and will answer questions regarding both the Federally Funded and Non-Federally Funded RFQs, submittal requirements and the selection process.

Port policy prohibits discrimination or preferential treatment because of race, color, religion, sex, national origin, ancestry, age (over 40), physical or mental disability, cancer-related medical condition, a known genetic pre-disposition to a disease or disorder, veteran status, marital status, or sexual orientation. It is the policy of the Port of Oakland to encourage and facilitate full and equitable opportunities for small local businesses to participate in its contracts for the provision of goods and services. It is further the Port's policy that no discrimination shall be permitted in small local business participation in Port contracts or in the subcontracting of Port contracts. The successful Respondent shall comply with the Port's non-discrimination policy.

To the extent that the scope of services includes work that falls under the Labor Code definition of "public works" (Cal. Labor Code Section 1720 et seq), this project will be subject to compliance monitoring and enforcement by the Department of Industrial Relations (DIR). Consultants submitting an SOQ, and subcontractors or subconsultants performing any portion of the work that falls under the "public works" definition, must be registered with the DIR pursuant to DIR requirements prior to submission of the SOQ, and the Prime Consultant must include in its SOQ its own DIR registration number and the DIR registration numbers of all listed subcontractors and subconsultants that will participate in the "public works" portion of the scope of services. Work that falls under the Labor Code definition of "public works" is also subject to the provisions of the Davis-Bacon Act. Qualified firms submitting SOQs will receive credit for the prime consultant satisfying the requirements of the Port's Non-Discrimination and Small/Local Business Utilization Policy (NDSLBP), a summary of which is included herein as Attachment II (b). Because of the uncertainty of the actual work to be performed under this contract, Proposed Consultants will not receive preference points for listed subconsultants.

Questions regarding this RFQ must be addressed in writing to the appropriate contact person listed under "RFQ Contacts", below. All questions not directed specifically to the primary contact person must be copied to said primary contact person. Proposed Consultants are advised that questions received less than seven (7) calendar days prior to the SOQ due date may not be answered. Where appropriate, the Port will respond in writing to proposer questions submitted in a timely fashion via an addendum or a 'Log of Responses to Potential Consultant Questions'; see "Port Responses to Potential Consultant Questions", below.

The Port reserves the right to reject any or all SOQs, to waive any irregularities or informalities not affected by law, to evaluate the SOQs submitted and to award the contract according to the SOQ that best serves the interests of the Port.
